# SAFETY DATA SHEET

1. Identification

Product identifier Black Magic® Tire Cleaner by Bleche-White®

Other means of identification

Synonyms 36203

Recommended use Tire care

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name ITW Permatex Canada

Address 35 Brownridge Road, Unit 1

Halton Hills, ON L7G 0C6

Canada

Telephone 1-905-693-8900
e-mail Not available.
Emergency phone number 1-877-504-9352
Supplier See above.

2. Hazard identification

Physical hazardsCorrosive to metalsCategory 1Health hazardsSkin corrosion/irritationCategory 1Serious eye damage/eye irritationCategory 1

Serious eye damage/eye irritation

Not classified.

Label elements

**Environmental hazards** 

Signal word Danger

**Hazard statement** May be corrosive to metals.

Causes severe skin burns and eye damage.

**Precautionary statement** 

**Prevention** Keep only in original packaging.

Do not breathe mist or vapour. Wash thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

**Response** Absorb spillage to prevent material-damage.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Immediately call a POISON CENTER/doctor. Specific treatment (see information on this label).

Wash contaminated clothing before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present

and easy to do. Continue rinsing.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF INHALED: remove person to fresh air and keep comfortable for breathing.

Storage Store locked up. Store in corrosive resistant container with a resistant inner liner.

**Disposal** Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards None known.

Supplemental information None

### 3. Composition/information on ingredients

MixturesChemical nameCommon name and synonymsCAS number%2-Butoxyethanol111-76-25Sodium metasilicate6834-92-05

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

#### 4. First-aid measures

IF INHALED: remove person to fresh air and keep comfortable for breathing. Immediately call a Inhalation

POISON CENTER/doctor.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Skin contact

Immediately call a POISON CENTER/doctor. Wash contaminated clothing before reuse. Specific

treatment (see information on this label).

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present Eye contact

and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON Ingestion

CENTER/doctor.

Most important

symptoms/effects, acute and

delayed

Burning pain and severe corrosive skin damage.

Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and

blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special

treatment needed

Treat patient symptomatically.

**General information** If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Wear rubber

gloves and chemical splash goggles. Keep out of reach of children.

# 5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media

Dry chemical, CO2, water spray or regular foam. Not available.

Specific hazards arising from

the chemical

Firefighters should wear a self-contained breathing apparatus.

**Hazardous combustion** 

products

May include and are not limited to: Oxides of carbon.

Special protective equipment

Firefighters should wear full protective clothing including self contained breathing apparatus.

and precautions for firefighters

Fire fighting equipment/instructions

Specific methods

Move containers from fire area if you can do so without risk.

Use standard firefighting procedures and consider the hazards of other involved materials.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not breathe mist or vapour. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8.

Methods and materials for containment and cleaning up

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Never return spills in original containers for re-use. Following product recovery, flush area with water. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS. Prevent entry into waterways, sewer, basements or confined areas.

**Environmental precautions** 

Do not discharge into lakes, streams, ponds or public waters.

#### 7. Handling and storage

Precautions for safe handling

Do not get in eyes, on skin, or on clothing.

Wear appropriate personal protective equipment.

Do not breathe mist or vapour. Use only with adequate ventilation. Avoid prolonged exposure.

Observe good industrial hygiene practices.

Wash thoroughly after handling. When using do not eat or drink.

Conditions for safe storage, including any incompatibilities Store locked up.

Store in a cool, dry place out of direct sunlight.

Store in corrosive resistant container with a resistant inner liner. Store away from incompatible materials (see Section 10 of the SDS).

Keep out of reach of children.

Other information

Not explosive. **Explosive properties** Not oxidising. Oxidizing properties

Specific gravity 1.02 < 2 % VOC (Weight %)

#### 10. Stability and reactivity

Reactivity May react with incompatible materials.

Stable under recommended storage conditions. **Chemical stability** Possibility of hazardous Hazardous polymerisation does not occur.

reactions

Conditions to avoid Do not mix with other chemicals.

Incompatible materials Acids. Strong oxidizing agents. Metals. Aluminum. May include and are not limited to: Oxides of carbon. Hazardous decomposition

products

# 11. Toxicological information

### Information on likely routes of exposure

Inhalation May cause irritation to the respiratory system. Prolonged inhalation may be harmful.

Skin contact Causes severe skin burns. Eye contact Causes serious eye damage.

Ingestion Causes digestive tract burns. May cause stomach distress, nausea or vomiting.

Symptoms related to the Burning pain and severe corrosive skin damage.

physical, chemical and

Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and toxicological characteristics

blurred vision. Permanent eye damage including blindness could result.

#### Information on toxicological effects

**Acute toxicity** 

#24401 Page: 4 of 7 Issue date 14-February-2017 Components **Species Test results** 2-Butoxyethanol (CAS 111-76-2) **Acute** Dermal LD50 Guinea pig 207 mg/kg Rabbit 400 mg/kg, HSDB 220 mg/kg, SIGMA 99 mg/kg, HMIRA 2000 mg/kg, ECHA Rat 99 mg/kg Inhalation LC50 Mouse 700 ppm, 7 Hours Rat 450 ppm, 4 Hours 400 ppm, 7 hours, ECHA 2.2 mg/L, 4 Hours 2 mg/L, 7 hours, ECHA Oral LD50 1200 mg/kg, ECHA Guinea pig 1200 mg/kg, HSDB Mouse Rabbit 320 mg/kg, HMIRA Rat 470 mg/kg Sodium metasilicate (CAS 6834-92-0) **Acute** Dermal LD50 Not available Inhalation LC50 Not available Oral LD50 Mouse 2400 mg/kg Rat 1153 mg/kg Skin corrosion/irritation Causes severe skin burns and eye damage. **Exposure minutes** Not available. Erythema value Not available. Not available. Oedema value Serious eye damage/eye Causes serious eye damage. irritation Not available. Corneal opacity value Not available. Iris lesion value Not available. Conjunctival reddening value Conjunctival oedema value Not available. Not available. Recover days Respiratory or skin sensitisation Canada - Alberta OELs: Irritant

2-Butoxyethanol (CAS 111-76-2) Irritant

**Respiratory sensitisation** Not a respiratory sensitizer.

**Skin sensitisation** This product is not expected to cause skin sensitisation.

Germ cell mutagenicity Not classified.
Carcinogenicity See below.

**ACGIH Carcinogens** 

2-Butoxyethanol (CAS 111-76-2)

A3 Confirmed animal carcinogen with unknown relevance to

humans.

Canada - Manitoba OELs: carcinogenicity

2-BUTOXYETHANOL (EGBE) (CAS 111-76-2) Confirmed animal carcinogen with unknown relevance to humans.

#### IARC Monographs. Overall Evaluation of Carcinogenicity

2-Butoxyethanol (CAS 111-76-2)

Volume 88 - 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity -

single exposure

Not classified.

Specific target organ toxicity -

repeated exposure

Not classified.

Not an aspiration hazard. **Aspiration hazard** 

**Chronic effects** Prolonged inhalation may be harmful.

2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and

prolonged. These effects have not been observed in humans.

**Further information** Not available

## 12. Ecological information

See below **Ecotoxicity Ecotoxicological data** Components **Test results Species** 2-Butoxyethanol (CAS 111-76-2) EC50 Crustacea Daphnia 1819 mg/L, 48 Hours Aquatic Fish LC50 Inland silverside (Menidia beryllina) 1250 mg/L, 96 hours Sodium metasilicate (CAS 6834-92-0) Aquatic Crustacea EC50 Water flea (Ceriodaphnia dubia) 0.28 - 0.57 mg/L, 48 hours Fish LC50 Western mosquitofish (Gambusia affinis) 1800 mg/L, 96 hours

Persistence and degradability

No data is available on the degradability of this product.

Bioaccumulative potential

Mobility in soil No data available. Mobility in general Not available.

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation Other adverse effects

potential, endocrine disruption, global warming potential) are expected from this component.

#### 13. Disposal considerations

**Disposal instructions** Local disposal regulations Dispose of contents/container in accordance with local/regional/national/international regulations.

Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused products

Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.

#### 14. Transport information

General

Canada: TDG Proof of Classification: In accordance with Part 2.2.1 (SOR/2014-152) of the Transportation of Dangerous Goods Regulations, we certify that the classification of this product is correct as of the SDS date of issue. If applicable, the technical name and the classification of the product will appear below.

Transportation of Dangerous Goods (TDG - Canada)
